

## Press Release

ISO 9001:2008 Registration Awarded to ios Optics

ios Optics Strengthens Commitment to Quality

Santa Clara, CA –October 10, 2015-- ios Optics is pleased to announce it is now certified to ISO 9001:2008. With this certification ios Optics has become the only custom optics manufacturer in Northern California to be certified to ISO 9001:2008. This distinction sets ios Optics apart from the field and allows it to better serve its customers.

ios Optics has defined quality objectives that directly increases throughput and are in line with its customer needs. “Improving throughput helps our customers reduce costs,” said Dino Valencia, Vice President of Sales and Marketing. “And continually improving quality solidifies our commitment to our customers.” Eduardo Taruc, Production Control Manager, adds “with focusing on quality we improve all aspects of our operation.”

“ios Optics considers ISO 9001:2008 certification key to becoming a strategic partner,” said Derek Fitzpatrick, President of ios Optics. “Achieving certification is a significant milestone in ios Optics’ history,” he goes on to say, “I cannot be more proud of our team. This certification is the result of our team’s commitment to becoming the best customer centric optical manufacture in the country.”

ABOUT ios OPTICS:

For over 35 years, ios Optics has been manufacturing custom precision optical components, opto-mechanical assemblies and optical coatings that meet the market's demand on mechanical dimensions, angles, and surface finishes. They have pushed the limits as the markets have evolved and consistently delivered the products and services required. ios Optics’ mission is to provide its customers the highest quality optical products and service without price compromise.

ABOUT ISO 9001:2008

ISO 9000 is the internationally recognized series of quality management system standards designed to help organizations ensure that they meet the needs of customers and ISO 9001:2008 is the standard to which organizations’ quality management systems are audited against.
